Bangalore, India

Professional Summary

Highly motivated Bachelor of Computer Applications (BCA) student at Christ University with a focus on building fast, accessible, and conversion-ready web experiences. Expertise in React, Next.js, TypeScript, and Python, with a strong foundation in DSA, UI/UX, and AI-assisted workflows. Proven ability to deliver deployed projects with live demos, strong visual quality, and practical user flows. Eager to contribute to a product team through an internship or freelance role.

Education

Bachelor of Computer Applications (BCA) Christ University, Bangalore 2025 — 2028	3.33 / 4.0 CGPA (2nd Semester) Core focus on Software Engineering & Data Structures
Class XII (CBSE) - Commerce Rajkamal Swarwati Vidya Mandir, Dhanbad 2023 — 2025	76%

Technical Projects

MRG App: Next-Gen B2B2C Marketplace | Jan 2026 - Present

[React](#), [Next.js](#), [Node.js](#), [Firebase](#)

- Developing a scalable marketplace connecting wholesalers, retailers, and customers (Zepto/Blinkit model).
- Implementing role-based flows, real-time inventory sync, and product discovery screens.
- Designed a premium UI/UX system focused on clarity, trust, and performance.

DSA Search Algorithm Visualizer & AI Assistant | Feb 2026

[JavaScript](#), [HTML5](#), [CSS3](#), [AI Integration](#)

- Built 5+ visual simulations for Linear and Binary search with step-by-step animations.
- Integrated 'Star-Command AI' to explain algorithmic concepts with guided prompts.
- Optimized rendering logic for smooth, interactive learning experiences.

Wholesale & Retail E-Commerce Platform | Jan 2026

[React \(Vite\)](#), [Firebase](#), [Context API](#), [Lucide](#)

- Full-stack platform for Roshan Enterprises supporting bulk and retail purchases.
- Features secure checkout, product browsing, and a polished mobile-friendly shopping flow.
- Delivered a live demo with performance-focused UI and responsive layouts.
