SUMMARY

Full-Stack & Software Developer studying at Christ University with practical experience in Java, Python, React, Next.js, and TypeScript. Familiar with core Data Structures & Algorithms, modern UI engineering, and computer vision workflows. Seeking a Software Engineering Internship to gain hands-on industry experience, learn from senior developers, and contribute to team projects.

EDUCATION

- Bachelor of Computer Applications (BCA), Christ (Deemed to be University), Bangalore (2025 – 2029) – 3.33/4.0 CGPA
  Coursework: DSA, OOP (Java), DBMS, Web Architecture
- Class XII (CBSE), Rajkamal Saraswati Vidya Mandir, Dhanbad, Jharkhand (2023)

EXPERIENCE

Web Development Intern – ShadowFox *[May 2026]*
Virtual Internship • Remote

- Completed an intensive web development internship building responsive UI components and frontend modules.
- Developed modular web pages following modern responsive design principles, earning a Certificate of Completion (SF05VIP397).

AI & Computer Vision Research Lead (Stipendiary) – Christ University *[June 2026 – Present]*
School of Sciences / CS Department • Bangalore

- Led confidential stipend-funded research building a 4-stage vision & Vis-NIR spectral pipeline for 2,300 specimens.
- Standardized 11,500 multimodal artifacts using U2-Net salient segmentation and Lanczos-3 filtering (<120ms/image).

PROJECTS

Wholesale & Retail E-Commerce Platform (Roshan Enterprises) *[December 2025]*
Demo: e-commerce-roshan-enterprises-dhn.web.app | GitHub: github.com/M20A03/E-commerce-Wholesale
React, Vite, Firebase

- Architected a production-ready B2B/B2C marketplace supporting dual wholesale and retail checkout flows with role-based auth.
- Implemented list virtualization via *react-window* for 60fps scrolling across 50+ catalog items with zero cumulative layout shift.
- Enforced WCAG 2.1 AA accessibility compliance and responsive mobile-first safe area styling across viewports.

Praxirence — Ambient Clinical Intelligence Platform *[September 2026 – Present]*
Demo: www.praxirence.com | GitHub: Confidential (Proprietary IP)
React Native, Expo, FastAPI, Python, Whisper ASR, Mistral-7B, AES-256

- Architected a zero-trust, DPDP-compliant healthcare ecosystem with 2 native Android apps and FastAPI backend.
- Integrated fine-tuned Whisper ASR & Mistral-7B for automated multi-speaker SOAP clinical care plan synthesis.
- Built zero audio retention protocol with in-memory shredding and AES-256-GCM encryption for patient vaults.

HACKATHONS & CERTIFICATIONS

- **Hackathons –** PromptWars (Google Devs x Christ Univ), InHack '26 & HackNova, CODEX '26 (Don Bosco), YUGASTR '26
- **Certifications –** SPARK Research Program (Christ Univ), ShadowFox Web Dev Intern, AI Prompt Engineering (MSFT/Reliance), Infosys C

TECHNICAL & PROFESSIONAL SKILLS

- **Programming Languages –** Java (Swing, JSP), Python (Pandas, NumPy), C, C++, JavaScript (ES6+), TypeScript, SQL
- **AI & Machine Learning –** PyTorch, U2-Net, Whisper ASR, Mistral-7B, OpenCV, Vis-NIR, Deep Learning, Computer Vision
- **Web & Backend –** Android App Dev (React Native, Expo), React 19, Next.js 15, FastAPI, Node.js, Express.js, Tailwind CSS
- **Databases & Cloud –** PostgreSQL, MySQL, Firebase, Supabase, Railway, AWS (S3, EC2), Vercel
- **Tools & Competencies –** Git, GitHub, Postman, Linux/Bash, VS Code, Eclipse IDE, DSA, Problem Solving, Agile Teamwork
- **Spoken Languages –** English (Professional / Fluent), Hindi (Native)
